6. Such exporters/ producers may be advised to file the questionnaire response within 37 days from the date of this communication.

7. Simple assertions and unsubstantiated claims should be avoided and will not be considered. All submissions concerning the PUC/PCNs must clearly set out the factual and economic basis for the proposals and must be supported by verifiable documentary evidence, particularly where differences in the costs and prices of proposed PCNs are claimed or exclusion of a product type is requested. A clear PCN methodology/structure should be provided where PCNs are proposed. 2. The period of investigation (POI) adopted by the Authority for the present investigation is 1st April 2025 to 30th June 2026 (15 months). The injury investigation period covers 1st April 2022 to 31st March 2023, 1st April 2023 to 31st March 2024, and 1st April 2024 to 31st March 2025, and the POI.

3. As per available records, it is understood that you are an importer/user of the subject goods and may, therefore, be interested in participating in the investigation. The Authority provides you an opportunity to defend your interests and assist it in arriving at a fair decision. You are accordingly requested to file the questionnaire response applicable to you. The Importer's Questionnaire is available at: https://dgtr.gov.in/sites/default/files/2024-06/Trade%20Notice%2007_2021_Importer%20Questionnaire.pdf

4. The relevant questionnaire pro forma and other case documents may also be downloaded from the DGTR website at https://www.dgtr.gov.in.

5. The purpose of the questionnaire is to gather information required for completion of the present investigation. Your company should answer each question clearly and precisely, identify the sources of information used, and attach supporting documents wherever required.

6. The response must be in English. All supplementary information or other material submitted with it must also be in English or accompanied by an English translation. The response must be certified by the Chief Executive of your company as accurate and complete and as presenting a true and fair view of the accounts and other data to the best of their knowledge and belief.

7. The unit of measurement in the present investigation is Metric Tonnes (MT). Information must therefore be supplied in MT. Where information is maintained in another unit of measurement, it should be converted into MT and the calculation methodology should be clearly explained.

8. The information furnished in your questionnaire response is subject to verification. You are therefore requested to retain all information, supporting records, and working sheets for verification as and when required by the Authority.

9. Although the questionnaires are prescribed as stated in paragraphs 3 and 4 of this communication, the Designated Authority reserves the right to call for any information at any time during the investigation and the course of the anti-dumping duty proceedings. You may also submit any additional information relevant to the investigation.

10. Economic Interest Questionnaire: The Authority also requests you to share information in the Economic Interest Questionnaire to assess the extent of impact on the user industry if anti-dumping duty is imposed on "Aluminium Extrusion Profiles, Structures and Articles thereof" from China PR, Malaysia, Vietnam and Thailand. The questionnaire is available at https://dgtr.gov.in/sites/default/files/2025-06/Economic%20Interest%20Questionnaire%20DGTR.pdf

11. Confidential information: The questionnaire response must be submitted in two versions: a confidential version and a non-confidential version. All information supplied must be clearly marked "confidential" or "non-confidential" at the top of each page. Information supplied without such marking shall be treated as non-confidential, and the Authority may allow other interested parties to inspect it. Confidential information must be accompanied by a non-confidential summary containing sufficient detail to permit a reasonable understanding of the substance of the information furnished on a confidential basis. In exceptional circumstances, a party may indicate that the information is not susceptible to summary; in such cases, it must provide a statement of reasons containing a sufficient and adequate explanation, in terms of Rule 7 of the AD Rules, 1995 and the appropriate trade notices issued by the Authority, as to why summarization is not possible. Where the Authority is satisfied that a claim of confidentiality is not warranted, or where the supplier is

unwilling to make the information public or authorize its disclosure in a generalized or summary form, the Authority may disregard such information.

12. Submission of information: All interested parties, including exporters/producers, must register on the SETU Portal (https://setu.dgtr.gov.in/) and upload all responses and submissions under their registered name and the corresponding SETU Case ID: AD/OI/079/2026. All submissions, including the data and annexures to the questionnaire response and the worksheets used in preparing the response, must be filed in searchable electronic/soft-copy format (MS Word, MS Excel, or PDF, as appropriate to the data type). All submissions must comply with the requirements laid down in the relevant trade notices. Non-confidential versions of all submissions must also be made available to all other participating parties through the same portal.

13. The questionnaire response must be filed no later than thirty-seven days from the date of issue of this communication.

14. If no response is received within the time stipulated in this communication, it will be presumed that you have no comments to offer. Your attention is specifically drawn to the AD Rules, which authorize the Designated Authority to record its findings on the basis of facts available in cases of non-cooperation by interested parties.

15. With respect to the non-confidential version of the information forming the basis of initiation available through SETU, the importer/user may file comments on the claims of confidentiality within 7 days from the date of this communication. The importer/user may also submit comments, if any, on the scope of the product under consideration (PUC) and the product control numbers (PCNs) within 15 days from the date of this communication. Simple assertions and unsubstantiated claims should be avoided and will not be considered. All submissions relating to the PUC/PCNs must clearly set out the factual and economic basis for the proposals and must be supported by verifiable documentary evidence, particularly where differences in the costs and prices of proposed PCNs are claimed or where exclusion of a product type is requested. A clear PCN methodology/structure should be provided where PCNs are proposed. The 15-day period shall run concurrently with the overall 37-day period under Rule 6(4), read with the explanation thereto, of the AD Rules, beginning from the date of this communication.

16. The filing of any comments, proposals, or requests concerning the PUC or PCNs shall not, by itself, suspend or extend any timeline prescribed by the Authority. An extension of time by 15 days shall be granted if the Authority, through a subsequent notice, modifies the PUC, and PCN that was not previously proposed or is different from the initiation notification. This extension of 15 days shall be granted from date of such notification of modified PUC and PCN. Extension of time by 15 days stated in this paragraph is not applicable in instances where there is no change in the PUC, and PCN methodology after initiation of investigation. Requests for a further extension of time, beyond the 15-day extension (if granted), will ordinarily not be considered except in case of exceptional circumstances, in line with Rule 6(4) of the AD Rules.

17. DGTR will also host a comprehensive list of interested parties on its official website at https://dgtr.gov.in/en/anti-dumping-cases/suo-moto-anti-dumping-investigation-concerning-imports-aluminium-extrusion?blink=9401#9401. You are strongly advised to visit the case page on DGTR website (www.dgtr.gov.in) and SETU portal (https://setu.dgtr.gov.in/) for any updated information with respect to this investigation.

18. If you wish to appoint a person or firm to represent your interests, you must issue a proper authorization in favour of that person or firm.

19. As per Rule 6(6) of the Customs Tariff (Identification, Assessment and Collection of Anti-Dumping Duty on Dumped Articles and for Determination of Injury) Rules, 1995, “the Designated Authority may allow an interested party or its representative to present the information relevant to the investigation orally but such

oral information shall be taken into consideration by the Designated Authority only when it is subsequently reproduced in writing."

20. You may contact this office should you require any clarification or assistance in furnishing the information in the prescribed manner.

21. The Authority appreciates your cooperation in providing the requisite information within the prescribed timelines and in assisting it in conducting the present investigation in a time-bound manner.

2. The investigation has been initiated by the Authority suo motu, in terms of Rule 5(4) of the Customs Tariff (Identification, Assessment and Collection of Anti-Dumping Duty on Dumped Articles and for Determination of Injury) Rules, 1995, on the basis of the information available with the Authority, including transaction-wise import data and representations received, which information the Authority has independently examined.
3. The period of investigation (POI) adopted by the Authority for the present investigation is 1st April 2025 to 30th June 2026 (15 months). The injury investigation period covers 1st April 2022 to 31st March 2023, 1st April 2023 to 31st March 2024, and 1st April 2024 to 31st March 2025, and the POI.
4. The unit of measurement in the present investigation is Metric Tonnes (MT). Information must therefore be supplied in MT. Where information is maintained in another unit of measurement, it should be converted into MT, and the calculation methodology should be clearly stated and explained.
5. **Information required from domestic producers:** As there is no application on record, the Authority is required to determine the domestic industry within the meaning of Rule 2(b) and to assess injury to the domestic industry as a whole on the basis of the information filed in response to this communication. You are therefore requested to file the **Domestic Industry Application Proforma and submit the complete information required therein**, together with your installed capacity, production, captive consumption, domestic sales, exports and imports (if any) of the subject goods, for each year of the injury period and for the POI, and to state whether you are related to any exporter or importer of the subject goods within the meaning of Rule 2(b).
6. **Economic Interest Questionnaire:** The Authority also requests you to share information in the Economic Interest Questionnaire to assess the extent of impact on the user industry if anti-dumping duty is imposed on "Aluminium Extrusion Profiles, Structures and Articles thereof" from China PR, Malaysia, Vietnam and Thailand. The questionnaire is available at: https://www.dgtr.gov.in/en/economic-interest-questionnaire
7. The domestic producers may furnish any further submissions or information considered relevant for the purposes of the investigation subsequent to initiation.
8. **Confidential information:** An interested party supplying information must ensure that all information supplied is clearly marked either "confidential" or "non-confidential" at the top of each page. Information supplied without such marking shall be treated as non-confidential, and the Authority may allow other interested parties to inspect it. Confidential information must be accompanied by a non-confidential summary containing sufficient detail to permit a reasonable understanding of the substance of the information furnished on a confidential basis. In exceptional circumstances, a party may indicate that the information is not susceptible to summary; in such cases, it must provide a statement of reasons containing a sufficient and adequate explanation, in terms of Rule 7 of the AD Rules, 1995 and the appropriate trade notices issued by the Authority, as to why summarization is not possible. Where the Authority is satisfied that a claim of confidentiality is not warranted, or where the supplier is unwilling to make the information public or authorize its disclosure in a generalized or summary form, the Authority may disregard such information.
9. **Submission of information:** All interested parties, including domestic producers, must register on the SETU Portal (https://setu.dgtr.gov.in/) and upload all responses and submissions under their registered name and the corresponding SETU Case ID: AD/OI/079/2026. All submissions, including the data and annexures to the questionnaire response and the worksheets used in preparing the response, must be filed in searchable electronic/soft-copy format (MS Word, MS Excel, or PDF, as appropriate to the data type). All

submissions must comply with the requirements laid down in the relevant trade notices. Non-confidential versions of all submissions must also be made available to all other participating parties through the SETU Portal itself. Guidance on registration and on filing through SETU is available at https://dgtr.gov.in/sites/default/files/2025-10/Trade%20Notice_SETU.pdf. In case of any difficulty in registering as an interested party, the DGTR's SETU Helpdesk may be contacted through the details provided at https://setu.dgtr.gov.in/help-desk.

10. DGTR will also host a comprehensive list of interested parties on its official website at www.dgtr.gov.in. You are strongly advised to visit the case page on the DGTR website and the SETU Portal (https://setu.dgtr.gov.in/) for any updated information with respect to this investigation.
11. **Time limit:** The information, if any, and the response to the questionnaire must be filed no later than thirty-seven days from the date of transmission of this communication, in terms of Rule 6(4) read with the explanation thereto of the AD Rules, 1995.
12. You may provide comments on the confidentiality claims of interested parties within 7 days from the circulation of the non-confidential version of the questionnaire response filed by the concerned interested party.
13. You may submit your comments, if any, on the scope of the product under consideration (PUC) and the product control numbers (PCNs) within 15 days from the date of this communication. Simple assertions and unsubstantiated claims should be avoided and will not be considered. All submissions relating to the PUC/PCNs must clearly set out the factual and economic basis for the proposals and must be supported by verifiable documentary evidence, particularly where differences in the costs and prices of proposed PCNs are claimed or where exclusion of a product type is requested. A clear PCN methodology/structure should be provided where PCNs are proposed. The 15-day period shall run concurrently with the overall 37-day period under Rule 6(4), read with the explanation thereto, of the AD Rules, beginning from the date of this communication.
14. The filing of any comments, proposals, or requests concerning the PUC or PCNs shall not, by itself, suspend or extend any timeline prescribed by the Authority. An extension of time by 15 days shall be granted if the Authority, through a subsequent notice, modifies the PUC and PCN that was not previously proposed or is different from the initiation notification. This extension of 15 days shall be granted from the date of such notification of the modified PUC and PCN. The extension of time by 15 days stated in this paragraph is not applicable in instances where there is no change in the PUC and PCN methodology after initiation of the investigation. Requests for a further extension of time, beyond the 15-day extension (if granted), will ordinarily not be considered except in case of exceptional circumstances, in line with Rule 6(4) of the AD Rules. Any request for extension of time must be filed through the SETU Portal at least one day before the expiry of the original deadline.
15. The information furnished by you in response to this communication is subject to verification. You are therefore requested to retain all information, supporting records, and working sheets for verification as and when required by the Authority. Where the information called for is not furnished within the time allowed, the Authority may record its findings on the basis of the facts available, in terms of Rule 6(8), and your production may be estimated from secondary sources for the purpose of determining total Indian production.
16. You may contact this office should you require any clarification or assistance in furnishing the information in the prescribed manner. Submissions, however, must be filed only through the SETU Portal against the above Case ID. The Authority appreciates your cooperation in providing the requisite information within the prescribed timelines and in assisting it in conducting the present investigation in a time-bound manner.
